Dear Mr Campbell

Thank you for your email of 14 September 2021 to submit feedback on Council's Ferry Network Review on behalf of the Central Business District Bicycle User Group (CBD BUG). The Lord Mayor referred your enquiry to me as Civic Cabinet Chair for Transport to provide a response.

I appreciate your group's participation in this community engagement and for providing valuable feedback.

Council is committed to investing in a transport network to suit Brisbane's lifestyle and community needs, including those of residents, visitors and commuters. The Ferry Network Review provides an opportunity for residents to have their say and submit further feedback on ways Council can shape the future of our city's world-class public transport network.

We will use feedback and information from the review to identify and consider service and network changes to further meet the needs of our community. Proposed network changes, including a full timetable review, will be scheduled for implementation in December.

As you are aware and have noted in your letter, changes to public transport infrastructure including ferry terminals, vessels, road networks or parking facilities are not part of this review. However, your feedback as it relates to infrastructure will be passed onto the relevant areas in Council for consideration as part of future planning.

Should you require any further information about this review, please visit our website at www.brisbane.qld.gov.au and search on 'Ferry Network community engagement'.

Thank you again for your feedback.

Yours sincerely
